WORLD BIOENERGY 2010

Conference & Exhibition on Biomass for Energy

25-27 MAY 2010, JÖNKÖPING - SWEDEN

WORLD BIOENERGY 2010

The interest in commercially viable and environmentally sustainable bioenergy solutions is growing rapidly worldwide. World Bioenergy is the international forum that most substantially facilitates the transfer of bioenergy technology, know-how and experience.

Once again, Sweden and the city of Jönköping are proud to be the international bioenergy focal point by hosting the 4th edition of World Bioenergy, **25-27 May 2010**.

World Bioenergy 2008 counted 4,400 unique visitors from 60 countries. 200 exhibiting companies were present in 170 stands and 1,180 persons participated in the conference and field excursions where 100 study visits were carried out to a range of different bioenergy sites - from biomass harvesting operations to production plants for heat, power and biofuels. 104 companies took part in the match-making in 660 different meetings.

TAKING YOU FROM KNOW-HOW TO SHOW-HOW

Organised every second year this major global bioenergy get-together is based on the unique "Taking you from Know-How to Show-How" concept, combining conference sessions, study visits and tradeshow into one comprehensive event. This way academic research and development blends seamlessly with commercial experience providing a better business context.

The overall purpose of World Bioenergy is to promote the implementation of bioenergy technologies. Compared to conventional bioenergy conferences, World Bioenergy places much greater significance on the field excursions integrating them fully into the main programme. Why? Simply because when it comes to putting bioenergy and its potential into tangible context, actions speak far louder than words.

PROGRAMME OUTLINE

	Monday 24/5	Tuesday 25/5	Wednesday 26/5	Thursday 27/5	Friday 28/5
09.00	PRE CONFERENCE TRANSFER TOURS	OPENING PLENARY SESSION	PARALLEL SESSIONS 5 - 8	PARALLEL SESSIONS 13 - 16	POST CONFERENCE TRANSFER TOURS
11.00		PARALLEL SESSIONS 1 - 4	PARALLEL SESSIONS 9 - 12	FINAL PLENARY SESSION	
13.00		LUNCH & EXHIBITION	LUNCH & EXHIBITION	LUNCH & EXHIBITION	
15.00		STUDY VISITS	STUDY VISITS	STUDY VISITS	
17.00					
19.00	ICE BREAKER	OFFICIAL DINNER	DINNER	WWW.WORLDBIOENERGY.COM	

"Here you can see new technology, companies that are developing new solutions, organisations that want to change the world and you can discuss how to do it. This is really a meeting place for changing the history - and that's how big it is."

Maud Olofsson, Minister for Enterprise and Energy, Sweden
(World Bioenergy 2008)

CALL FOR PAPERS

Within World Bioenergy 2010 you will be able to participate in several sessions focusing on different themes. The overall focus will be on applied and currently available technology, as well as efficient, sustainable, and economic solutions. Shortly: bioenergy solutions that work. Depending on your own interest and profile, you can choose among a number of themes, each of them complemented with exhibitors at the fair and daily study visits.

The organisers are currently soliciting papers for World Bioenergy 2010. If you are interested in presenting a paper orally or in poster format, please visit www.worldbioenergy.com for more information and submission guidelines.

Important dates:

Final date for submission of abstracts: **10 January**

Notification of Authors: **1 February**

Final date for submission of full papers: **15 April**

CONFERENCE TOPICS

The organisers are specifically interested in papers related to the following topics:

1. Combined Heat and Power, Combustion, Heating and co-firing
2. Forest residues - slash, stumps, small tree harvest
3. Pellets - the new large energy commodity
4. Waste to Energy - an option for every community
5. Energy crops, agricultural residues and by-products
6. Biofuels for transport - biogas, bioethanol and biodiesel
7. Policy - how to make it all happen

Submission of other relevant topics may also be considered. Submissions will be evaluated by a scientific committee.

PRE - AND POST CONFERENCE TRANSFER TOURS

A distinctive feature of World Bioenergy are the popular pre- and post conference transfer tours. Arranged on the 24 and 28 May they offer a very convenient, cost- and time effective travel option from airports in Stockholm or Copenhagen to Jönköping and back. In addition, these tours provide you with an exclusive opportunity to visit a selection of modern bioenergy facilities en route to and from Jönköping. With a 28% share, bioenergy is already a major part of the Swedish energy mix, a unique factor that attracts global attention!

SIDE EVENTS

We cordially invite for specialist and targeted sessions. Project meetings, contractor meetings, work-shops etc. can be held at Elmia fairground in connection to the conference and exhibition.

A number of side events are already booked, read more on:

www.worldbioenergy.com.

INTERNATIONAL TRADE FAIR

World Bioenergy is also an international trade fair all focused on the biomass-to-energy sector. The exhibitors are leading manufacturers, suppliers and sub-suppliers of products, technology and services to the entire bioenergy sector.

WHY ATTEND? WHO WILL ATTEND?

World Bioenergy is the professional focal point for the industry. Those who attend are key decision-makers and executives with purchasing power from industry, along with civil servants, academics, politicians, researchers, NGO's, equipment manufacturers, service suppliers, energy providers, energy buyers, carbon traders, consultants, journalists etc.

World Bioenergy is the ultimate business mixer for all the major movers, shakers and money-makers within the global bioenergy industry.
